

**Deliver True
Person-Centered Care
with Care Connect App.**

Person-Centered Care has been proven to be the most effective way of delivering care in any setting, from skilled and memory care to assisted living and attendant care.

The challenge is being aware of and supporting personal perspectives, values, beliefs of the person you are caring for.

Our Care Connect App empowers facilities and caregivers to deliver true person-centered care by providing them with extensive tools featuring detailed, person-centered information that makes personalized care-planning, delivery and reporting possible.

Care Connect

Features:

Benefits:

Competitive Advantage by Improving Your Quality of Care.

Provide a higher level of care by giving your hands-on caregivers in-depth knowledge of the medical and social history of the people they are caring for, as well as all communication tools to share all information necessary for better care.

Streamline the Delivery of Your Care Plans.

Our intuitive ecosystem provides tools for instantaneous communication of care plan updates, ensuring it is carried out accurately and documented in a manner that is easy for the management team to audit and quantify.

Peace of Mind for the Families.

Care Connect's Family App enables families to stay connected and engaged with the care team, allowing them to upload videos and photos, and stay informed about the health and care of their loved ones.

Improved Employee Accountability.

Our system streamlines charting and provides the necessary tools to track and quantify every aspect of the care being provided by your employees.

Higher Retention and Satisfaction.

Our system provides your caregivers with in-depth knowledge about the care recipients, providing them with the ability to share information as a team, creating a stronger connection and enabling better care, and leading to higher job satisfaction and lower caregiver turnover.

Peace of Mind

Improve the quality of life for care recipients and strengthen the bond between caregivers and care recipients by providing peace of mind for families.

Family Communication

Stay connected and engaged with the facility, upload videos and photos, and stay informed about the health and safety of your loved ones.

Higher Closing Rates

Increase occupancy and gain a competitive edge by utilizing state-of-the-art Person-Centered Care technology.

Employee Satisfaction

Reduce the workload of caregivers and increase productivity, enabling a greater bond between care recipient and caregiver. We have solutions for every facility problem.

Less Than \$1 A Day

Care Connect is fully customizable, mobile, and integrated - all for less than one dollar a day per care recipient.

Award Winning Innovation

Awarded Innovation of the Year by INALA - Indiana Assisted Living Association.

Comprehensive Monitoring

Monitor care plans, door access, reports, wander management, integrated video, alarm access, and so much more with this one app.

Custom Analytics

Customizable dashboards and reports simplify analysis on all data points, from staff performance to operations, saving time and money.

On-Site Personalized Training

Offering ongoing in-person and video technical support customizable to your needs.
